---

### 25.15.01 – Special Exceptions

#### a. *Generally*

1. The Board of Appeals must not grant any petition for a special exception unless it finds from a preponderance of the evidence of record that:
  - (a) The proposed use does not violate or adversely affect the Plan, this Chapter or any other applicable law; and
  - (b) The proposed use at the location selected will not:
    - (i) Adversely affect the health and safety of residents or workers in the area;
    - (ii) Overburden existing and programmed public facilities as provided in Article 21 of this Chapter and as provided in the adopted Adequate Pubic Facilities Standards Manual;
    - (iii) Overburden existing and programmed storm drainage and other public improvements;
    - (iv) Be detrimental to the use or development of adjacent properties or the neighborhood;
    - (v) Change the character of the neighborhood in which the use is proposed considering services currently provided, population density, character, and number of similar uses; and
    - (vi) Constitute a nuisance because of noise, traffic, number of people or type of physical activity; and
  - (c) The proposed use complies with all applicable requirements of this Chapter, including but not limited to the special requirements contained in Section 25.15.02.
2. The Board of Appeals may impose terms, conditions and restrictions upon the grant of any special exception that are reasonably necessary to protect adjacent properties, the neighborhood, and the residents and workers in the vicinity. Compliance with all such terms, conditions, and restrictions are

deemed to be continuing conditions imposed upon the grant of the special exception.

3. If the Chief of Planning has reason to believe that any of the terms, conditions or restrictions upon which a special exception was granted have not been complied with, the Chief of Planning may take the following actions:
  - (a) Provide written notice by first class mail to the owner of the special exception use, the owner of the property on which the use is located, the owners of all properties within a radius of at least 500 feet of the lot boundaries of the use or larger area if determined to be necessary by the Chief of Planning, and all parties of record in the proceedings that resulted in the approval of the use, that a public hearing will be held to determine if a violation has occurred;
  - (b) A sign shall be posed on the site as provided in Article 5;
  - (c) If following the public hearing the Board determines, based on the public record, that a violation has occurred, the Board is authorized to suspend or revoke the grant of such special exception or take other action it deems necessary to assure compliance with the terms, conditions, and restrictions of the special exception.
- b. *Modifications* – The Board may amend or modify the terms or conditions of a special exception on request of the special exception holder.
  1. *Minor Modification*
    - (a) If the proposed modification is such that the terms or conditions could be modified without substantially changing the nature, character or intensity of the use and without substantially changing the effect on traffic or on the immediate neighborhood, the Chief of Planning may modify the term or condition without convening a public hearing to consider the proposed change.
    - (b) A copy of the Chief of Planning's decision modifying a special exception must be transmitted to the holder of the special exception, the Planning Commission, the Board of Appeals, and all parties entitled to notice in accordance with Article 5. The resolution must state that any party may, within 15 days after the date of the written notification of the Chief of Planning's decision, request a public hearing on the Chief of Planning's action. The request must be in writing, and must specify the reasons for the request and the nature of the objections or relief desired. If a request for a hearing is received, the Chief of Planning must suspend its decision

and conduct a public hearing to reconsider the proposed change or modification.

2. *Major Modification*

- (a) If in the opinion of the Chief of Planning the proposed modification substantially alters the nature, character, intensity of use or the conditions of the original grant, the Board must convene a public hearing to consider the proposed modification. Except as otherwise provided in this Section, such request for modification is subject to the requirements set forth in Article 5, and the Board must receive and process petitions for modification of a special exception in accordance with the provisions of that Article.
- (b) The public hearing must be limited to consideration of the following:
  - (i) Proposed modifications noted in the Board's notice of public hearing;
  - (ii) Those aspects of the special exception use that are directly related to, or affected by the proposed modification; and
- (c) Notwithstanding the provisions of subsection b.2.(b) above, the Board shall consider other aspects of the special exception if the modification proposes an expansion of the total floor area of all structures or buildings by more than 25%, or 7,500 square feet, whichever is less.
- (d) After the close of the record of the proceedings, the Board must issue a decision in accordance with the requirements of Article 5.
- (e) As a condition of any modification the Board may require the underlying special exception to be brought into compliance with the general landscape, streetscape, pedestrian circulation, noise, and screening requirements of Article 17, if:
  - (i) The proposed modification expands the total floor area of all structures or buildings by more than 25%, or 7,500 square feet, whichever is less; or
  - (ii) The expansion, when considered in combination with the underlying special exception, changes the nature or character of the special exception to an extent that substantial adverse effects on the surrounding neighborhood could reasonably be expected if the requirements of Article 17 are not met.

3. *Substantial changes requiring a new application* – An application for a new special exception is required when substantial modifications meeting the criteria of Section 05.05.07.d are met.
